## THANK YOU!

The Public Information Office staff would like to take this opportunity to thank the following college personnel who have assisted us at our recent mall displays.

### Richmond Administration:

John Slattery  
Karen Hern  
Win Matheson

### Library Personnel:

Carol Hanson  
Cathy MacDonald  
Doug Ruggles  
Janice Friesen  
Margie Nicol

### Surrey Faculty:

Claude Lausigne  
John Wong-Hen  
Larry Banks

Special thanks also go to our student assistants Tracie Burns, Jay Salh, and Liana Bruun who have helped us with our weekly mall displays in July and August.

These mall displays are particularly effective in increasing our external image, having materials on the college easily available to the public and making our marketing statement of WE CAN HELP a reality.

Once again thank you for your help and for giving of your time to this very important college activity.

Bonnie McGhie

## CONTINUING EDUCATION FLYER

Did you receive a copy of the Fall Continuing Education Flyer in your home mail box?

If you live in the college district and have not received your copy, please call the Public Information Office, Surrey Campus Local 273.

## STUDENTS BUILD FUTURE UNDER COLLEGE PROGRAM

A Kwantlen College graduate is the first apprentice carpenter selected for a new training scheme by B.C.'s non-union construction industry.

Graham Almond, 19, of White Rock, will spend 3.5 years indentured to the 350 member independent Contractors and Businesses Association of B.C. (ICBA)

Almond was hired on completion of Kwantlen's 8-10 month Carpentry/Building Construction program. Acceptance of only college or institute trained applicants is among several plan features meant to attract employers.

"We get calls from employers looking for trained people," said Kwantlen instructor Don Currie. Graham, a former pizza delivery man, is now working on a Surrey condominium project.

\*this article appeared in the Real Estate Weekly, August 15.

## SEA ON THE FUTURE - PERSPECTIVES IN OCEAN TECHNOLOGY

Sea the Future is an international symposium, which opens EXPO's Underwater and Offshore Resources Specialized Period in September. It is designed to bring together the expertise of academia, industry, government, business and finance in an innovative forum on ocean technology.

The opening session on Friday night, September 12, offers the general public an exciting evening focused on the drama of ocean exploration and discovery. In addition, the two lotteries, Grand Cayman Underwater and Dive DEEP ROVER which are being run to support the symposium, give people a chance to themselves explore the ocean depths.

For more information please contact:

SEA THE FUTURE,  
Box 48975 Bentall P.O.,  
Vancouver  
V7X 1A8

OR PHONE:

688-9122

### SIGN POSTING

Please be reminded that posting of any signs other than designated areas is for obvious reasons strongly discouraged.

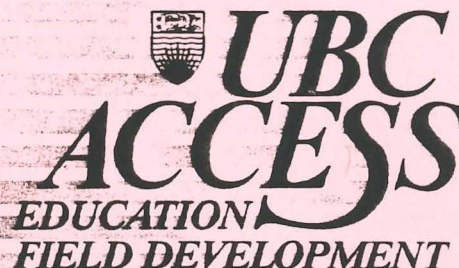

If any "emergency" situation should arise (where it was impossible to advise otherwise) please check with me first before posting signs.

As a matter of further clarification even signs, posters, etc. put on bulletin board should be cleared first.

Thanks for your cooperation!

Ted Blaha

## THREE COURSES OFFERED VIA THE KNOWLEDGE NETWORK IN 1986/87
